SAMPLE RESIDENTIAL TENANCY AGREEMENT

SYNTHETIC DEMO DOCUMENT • NOT A REAL CONTRACT • FOR SOFTWARE TESTING ONLY

This fictional agreement is created solely to test Lease Lens PDF text extraction and candidate-term detection. It does not represent a real landlord, tenant, property, or legally reviewed agreement.

1. Parties and Property

This sample agreement is made between Sample Landlord (the “Landlord”) and Sample Tenant (the “Tenant”) for the fictional residential property at 123 Example Street, Demo City. The proposed tenancy begins on 1 November 2026, subject to the parties signing a final agreement.

2. Monthly Rent

The monthly rent is RM 2,500.00 (Ringgit Malaysia Two Thousand Five Hundred Only), payable on or before the fifth day of each calendar month. The amount is included as a test value for Lease Lens extraction.

3. Security Deposit

The Tenant shall pay a security deposit of RM 5,000.00 before moving into the property. Any refund or deduction would be governed by the final signed agreement and applicable law.

4. Lock-in Period

The lock-in period is 12 months from the tenancy commencement date. This is a sample term only and should not be interpreted as a statement about enforceability.

5. Notice Period

The notice period for ending the tenancy is 30 days, subject to the conditions of the final signed agreement and applicable law.

6. Utilities and Maintenance

The Tenant is responsible for ordinary utility charges during occupancy. The Landlord is responsible for structural repairs unless the final signed agreement states otherwise.

7. General Conditions

This sample is intentionally short and uses clear wording so a development team can verify whether PDF text extraction and simple rule-based term detection are functioning correctly.

Important: This document is fictional and for software testing only. Lease Lens results are candidate terms, not verified legal conclusions. The tool does not provide legal advice.
